Latisse® FAQ's

What is Latisse®?

LATISSE® solution is a prescription treatment for hypotrichosis, used to grow eyelashes, making them longer, thicker and darker.

How do I apply Latisse®?

LATISSE® solution is a once-a-day treatment you apply yourself each evening to the base of your upper eyelashes.

How soon will I see results?

LATISSE® users may start to see longer lashes at 4 weeks, with full growth at 16 weeks. One bottle of Latisse lasts about 50-60 days.

Is Latisse® different from nonprescription products that indicate eyelash growth?

LATISSE® solution is the first and only prescription treatment approved by the FDA for inadequate (not enough) eyelashes, growing them longer, fuller and darker.

What happens if I stop using Latisse®?

If you stop using LATISSE®, your eyelashes are expected to return to their previous appearance after your eyelashes are naturally replaced. Eyelashes regenerate about every 7 weeks.

Can I get a prescription for Latisse® from any doctor?

Although any doctor can prescribe LATISSE®, some may be more familiar with this product than others. When you purchase LATISSE® from Advanced Vision Specialists, Dr. Bello will monitor you for optimum eye health as you grow luxurious lashes.
